Kalo Mina continues!

widmertheodoridis keeps finding and presenting art at new places. This time the event was limited by the spatial conditions of the artist run and exhibition space OTTTO: The art works had to fit into the display window in favour of a 24/7 accessibility.

On the first day of each month, Greeks will be greeting just about every single person they know and meet with: “Καλό μήνα” (Kalo Mina), which literally means “good month”. widmertheodoridis wishes you in 2024 with 12 Greek artists a ‘Kalo Mina’ in Athens. Kalo Mina is not a thematic exhibition but a window of Greek contemporary art. On the first of every month one artist out of twelve is presented.
